INTRODUCTION

This report provides an analysis and statistical tables of foreign visitor arrivals to and U.S. citizen departures from the U.S. during the calendar year 1975.

The analysis portion of this report has two sections. Section A provides data synopses of foreign visitor arrivals by country of residence, purpose of trip, mode of travel, and port of entry (with a detailed analysis for 32 selected ports). Section B provides data synopses of U.S. citizen departures by first country of debarkation, flag of carrier, mode of travel, and U.S. port of departure (with a detailed analysis for 26 selected ports).

The two sets of data represent slightly different traveler compositions. The arrival figures reflect only tourists (those arriving for business, pleasure, study, and in transit according to the international definition). The U.S. citizen departure data indicate total departures devoid of a breakdown; any distinction between tourist and non-tourist travelers departing the U.S. is impossible to formulate because the information is not available. (U.S. citizens are no longer required to complete Form I-94 which used to provide this information.)

Section A - Foreign Visitor Arrivals

The first part of this section contains an overview and four tables on A) the overseas visitor generating regions, B) the top five overseas generating countries, C) the ten (10) leading ports of entry for overseas arrivals and D) the ten (10) leading entry ports for overseas arrivals including Mexico arrivals.* The second part contains individual analytical synopses of each of the sixty-eight data tables on overseas arrivals contained in this report.

The port statistic analyses are ordered alphabetically by port.

*Data on Canadian travel to the United States is not included in this report because Canadians are not required to obtain a visa prior to entering this country.

All information was obtained from the Immigration and Naturalization Service Forms I-94 and Form SW-434.*

Section B - U.S. Citizen Departures

The synopses and data in this section relate to U.S. citizen departures, mode of travel, port of departure, flag of carrier, and first country of debarkation.

The information was obtained from the Immigration and Naturalization Service Form I-92. This form contains information regarding the number of U.S. citizens on board the aircraft or ship when it clears the last port under U.S. jurisdiction, and the number of individuals who disembark at a specific foreign port. In this report, therefore, port of departure is defined as the last U.S. port of clearance, and the figures reflect the first foreign country of debarkation. For example, a traveler boarding a ship or aircraft in Los Angeles for Tokyo with a stop in Honolulu would be counted as departing the U.S. from Honolulu and disembarking in Tokyo, and a passenger boarding in New York for Rome with either a day's stop or a change of planes in Paris would be counted as departing the U.S. from New York and disembarking in Paris.

The format utilized in this section is similar to that of Section A. The 26 selected ports, presented alphabetically, are:

* According to INS Regulation 212.6:

This form, first issued in 1969, allows a resident of Mexico to enter the U.S. for a period of up to 15 days in the immediate border areas and/or to travel within the States of Texas, New Mexico, Arizona, or California.

SECTION A

1975 HIGHLIGHTS OF FOREIGN VISITOR ARRIVALS BY COUNTRY OF RESIDENCE, PURPOSE OF TRIP, MODE OF TRAVEL, AND U.S. PORT OF ENTRY
